POLICY

what?

- Sustainable Investment=Responsible Investment = E.S.G.
- Where, E.S.G.=Environmental, Social & Governance Issues

why?

- Legal Obligations
- Share Price Vs Return
- Empirical results suggest

How?

1. Be a signatory to United Nations Principles of Responsible Investment
2. To monitor and report on their carbon footprint.
3. To establish a policy of the sustainability.
4. To provide members with the option of receiving electronic communication in order to reduce paper wastage.
5. Educate members with regard to sustainability.
6. Encourage sustainable business practices beyond the office environment.
7. Take environmental or social issues, labour standards or human rights into consideration when making investment decisions
8. Negatively to investment in gambling, tobacco, uranium mining and processing or weaponry.
9. Encourage openly communication on climate change and demonstrate practical examples of implementing complete responsible investment principles.
10. To be a Role Model in S.I.
